

Emmanuel Alejandro Valdez Montigel

Backend Developer | C# · ASP.NET Core · EF Core · SQL

Mendoza, Argentina | contact@evaldez.ar | evaldez.ar | github.com/Emmanuel-Valdez

PROFESSIONAL SUMMARY

Backend Developer focused on C#, ASP.NET Core, EF Core, and SQL. I build deployed web applications with authentication, database integration, Docker-based environments, and clear API structure. Currently studying Software Development at IFTS N 29

TECHNICAL SKILLS

Backend: C#, .NET 8/7, ASP.NET Core MVC, ASP.NET Core Web API, EF Core, REST APIs, Razor, LINQ, DTOs, Dependency Injection

Databases: PostgreSQL, SQL Server, MySQL, SQL views, SQL triggers, EF Core Migrations, relational data modeling

Web & Frontend: HTML, CSS, JavaScript, TypeScript, Astro, Tailwind CSS, Bootstrap, responsive design, SEO, accessibility basics

Tools & Deployment: Git, GitHub, Docker Compose, Nginx, Ubuntu Server, MinIO, Swagger/OpenAPI, environment variables, manual regression testing

SELECTED PROGRAMMING PROJECTS

VaultShop | ASP.NET Core 8, PostgreSQL, Docker Compose, Nginx, MinIO, Stripe vaultshop.evaldez.ar

2024 - 2025

- Built a self-hosted e-commerce application with product catalog, cart, orders, admin screens, PostgreSQL persistence, and Docker Compose deployment.
- Implemented ASP.NET Core Identity, role-based access control, localization, Stripe Checkout, and secure product image upload with SkiaSharp processing.
- Practiced production-style backend concerns: configuration, object storage, reverse proxy setup, Linux hosting, and backup/restore checks.

MagicVilla | .NET 7 Web API, MVC, SQL Server, JWT, Swagger, AutoMapper

2023

- Developed a REST API and MVC client with SQL Server, EF Core, Identity, JWT authentication, Swagger documentation, and DTO mapping.
- Practiced layered API structure, protected admin flows, database-backed CRUD operations, pagination, and JSON Patch updates.

Developer Portfolio | Astro, TypeScript, Tailwind CSS, Netlify

Active

- Built a bilingual portfolio focused on accessibility, SEO, responsive design, and concise technical case studies.
- Organized projects as evidence of backend learning, deployment practice, and technical communication.

FunkoShop | Node.js, Express, EJS, MySQL, Sequelize

2023

- Contributed to an educational team e-commerce project with product CRUD, authentication, server-rendered views, and MySQL persistence.

EDUCATION AND TRAINING

- Tecnicatura Superior en Desarrollo de Software - IFTS N 29 (2025 - Present). Relevant topics: OOP, databases, software engineering, systems analysis, software architecture.
- Cloud Architecture Program - in progress. Topics: cloud fundamentals, networking, migration concepts, scalability, serverless, Infrastructure as Code fundamentals.
- Relevant courses: .NET Core MVC E-commerce, Web APIs .NET 7, Foundational C# with Microsoft, Node.js Full Stack, React JS, Testing Avanzado.

LANGUAGES

- Spanish: Native.
- English: B2 overall; strong technical reading and professional written communication; conversational speaking developing.
