## PROFILE

Backend-focused .NET developer with experience building and deploying business web applications. My main case study is VaultShop, an ASP.NET Core 8 MVC e-commerce application deployed on a real Ubuntu VPS with PostgreSQL, Docker Compose, MinIO, Stripe, Identity roles, and Nginx HTTPS. Looking for a first professional junior backend .NET or fullstack .NET role.

## TECHNICAL SKILLS

**Backend:** C# · .NET 8 · ASP.NET Core MVC · Entity Framework Core · REST APIs · LINQ · Dependency Injection

**Data:** PostgreSQL · EF Core migrations · SQL views · SQL triggers · MySQL

**Auth/Payments/Infra:** ASP.NET Core Identity · roles · OAuth · Stripe Checkout/webhooks · Docker Compose · MinIO · Nginx HTTPS · Ubuntu VPS

## MAIN PROJECT

### VaultShop — Deployed .NET e-commerce on VPS · 2024–2026

ASP.NET Core 8 MVC · C# · EF Core · PostgreSQL · Identity · Stripe · MinIO · Docker Compose · Nginx HTTPS

- Built and deployed VaultShop, an e-commerce case study with public store, cart, orders, administration, protected roles, and demo data.
- Implemented backend flows for catalog, cart, orders, accounts, Customer/Company/Employee/Admin roles, ES/EN localization, and protected admin screens.
- Developed a pricing calculator with costs, margins, SQL views/triggers, and admin review to replace spreadsheet-based manual decisions.
- Integrated Stripe Checkout/webhooks, Facebook OAuth, MinIO image storage, PostgreSQL with EF Core migrations, and GitHub Actions CI.
- Validated production-style operations: HTTPS deployment, Docker Compose, PostgreSQL/MinIO backup-restore checks, and basic uptime/TLS monitoring.

## EXPERIENCE

### Ukiyo Mochilas — Store Operations & E-commerce · 2020–present

- Managed catalog, stock, orders, customer service, fulfillment, and logistics for a family e-commerce business.
- Identified operational issues around costs, pricing, and history that became requirements for VaultShop.

### Private Tutor — Mathematics, Physics, English · 2012–2021

- Tutored students individually and in groups, developing clear communication and complex problem decomposition.

## EDUCATION

Tecnicatura Superior en Desarrollo de Software · IFTS N° 29 · 2025–present

.NET Core MVC E-commerce [.NET 8] · Udemy · Full Stack Web Development Node.js · React JS
